Locations: Stockton and Lodi

About Valley MRI and Radiology, Inc.:

Located within the Central Valley, we are a fast-growing radiology group and one of the original free-standing facilities in existence today. We currently serve a population over 700,000 patients in the heart of San Joaquin County. We strive to serve the community by providing the best radiology service and outstanding patient satisfaction, which is why *"Because You Matter"* is our official company motto. Most importantly, we're family oriented.

Position Overview:

Responsible for scanning patients and communicating issues to our onsite radiologists. Positions and instructs patients, operates ultrasound equipment, and determines technical factors for such ultrasounds.

Qualifications:

- Graduate of an accredited program for Ultrasound Technology
- Registered with American Registry of Diagnostic Medical Sonographers (RDMS) (preferred)
- Board Certified in OBGYN, Abdominal, or Vascular (preferred)
- 1-year Ultrasound experience (preferred)
- CPR certified
- Must be able to work independently
- Must be able to handle high stress in emergency or busy situations
- Must be trustworthy, reliable, and self-motivated
- Must be a team player
- Must follow company guidelines and policies
- May occasionally travel to our nearby center to receive training and/or help with coverage if needed.

We offer competitive pay and benefits including: medical/dental/vision, paid time off, paid holidays, 401k with match, education reimbursement, and other perks!
