About Valley MRI and Radiology, Inc.:

Located within the Central Valley, we are a fast-growing radiology group amid expanding and one of the original free-standing facilities in existence today. We currently serve a population over 300,000 patients in the heart of San Joaquin County. We strive to serve the community by providing the best radiology service and outstanding patient satisfaction, which is why *"Because Quality Matters"* is our official company motto. Most importantly, we're family oriented.

Position Overview:

Responsible for scanning patients and communicating issues to our onsite radiologist. Positions, screens and instructs patients, operates MRI equipment, and determine technical factors for such MRI procedures. Performs routine and advanced MRI procedures on designated portions of the body for use by physicians in the diagnosing and treating of patient illness and/or injury with minimal amount of supervision or repeats.

Qualifications:

- Graduate of an accredited program for MRI
- Must be ARMRIT or ARRT Registered
- 1-year of MRI experience preferred
- CPR certified
- Must be able to work independently
- Must be able to handle high stress in emergency or busy situations
- Must be trustworthy, reliable, and self-motivated
- Must be a team player
- Must follow company guidelines and policies
- May occasionally travel to our nearby center to receive training and/or help with coverage if needed.

We offer competitive pay and benefits including: medical/dental/vision, paid time off, paid holidays, 401k with match, education reimbursement, and other perks if you become a full-time employee!
